Developing Multics software -- cross-country teamwork

Phoenix Operations and the Multics Development Project have reached a significant milestone in the development of the product -- the first prerelease of Multics software as a standard Honeywell product. Through the dedication of a small group of people, working long hours under difficult circumstances, this initial Multics software shipment was made in time to meet a contractual deadline with the Air Force Data Services Center at the Pentagon, Washington, D.C.

Multics software is developed by the Cambridge Information Systems Laboratory of CEO-Phoenix in Cambridge, Mass. and is then transmitted to Phoenix where it is packaged and undergoes system testing and qualification.

Commenting on the software shipment, Lee Wilkinson, Director -- CEO Engineering -- Phoenix, said, "The team effort entailed in overcoming this 2,500 mile separation of Multics developers and their Phoenix counterparts is a truly notable achievement. Everyone who contributed is to be congratulated for another job well done."

Multics software developers at the Cambridge Lab: First row, from left, Stephen Horodst, David Lovin, Eleanor Stone, Thomas Casey, Charles Citrioni, Gabriel Chang and Cecile Erickson. Second row, from left, Myra Sheppard, William Silver, Mosley More, Donald MacLaren, Robert Mullen, Alan Downey and Barry Wolman. Third row, left to right, Michael Grady, Bernard Greenberg, David Vinegrad, Robert Orten, John Gillen, Stephen Meibos, Robert Freedburg and Susan Herr. Fourth row, from left, William Smith, Peter Haver, Richard Barnes, George Hilsbury, Noel Morris, Richard Snyder, Maxine Smith and Andrew Kollner. Not available for the photo was Melanie Weaver.

Phoenix contributors to the Multics software project included, kneeling from left to right, Bill George, Fred Binder and Alido Tada. Standing, from the left, are Bob May, Raymond Gandy, Al Dier, Mauro Pacelli, Ron Riede, Bob Franklin, Ed Kallman, Bob Morrison, Jerry Gilliland, Cisby McCarthy, Bob Ad

Toastmaster...

George Barnett, of International Order Administration in Marketing, proudly displays a plaque honoring him as the Area Governor of the Year from District 3 Toastmasters. George has been Area 12 Governor for the past two years, providing assistance to the six Toastmasters Clubs in Phoenix, Glendale, Sun City, Flagstaff and Prescott. The recipient of the award is selected annually by the officers of District 3 Toastmasters based on the accomplishments of area Governors who are responsible for directing the activities of 50 Toastmasters Clubs in the state of Arizona.

George was also elected by the District 3 Council to the position of Division Lt. Governor for the next year. In this post he will direct the activities of four areas consisting of four other clubs. Since October 1962 he has been active in the Toastmasters B.C. (Black Canyon) club which meets in the Phoenix Honeywell office every Wednesday Noon.
